VIVA  
TECHNOLOGY

# Happy change

Refillable personal care products,  
better for you & the planet

**There's too much**

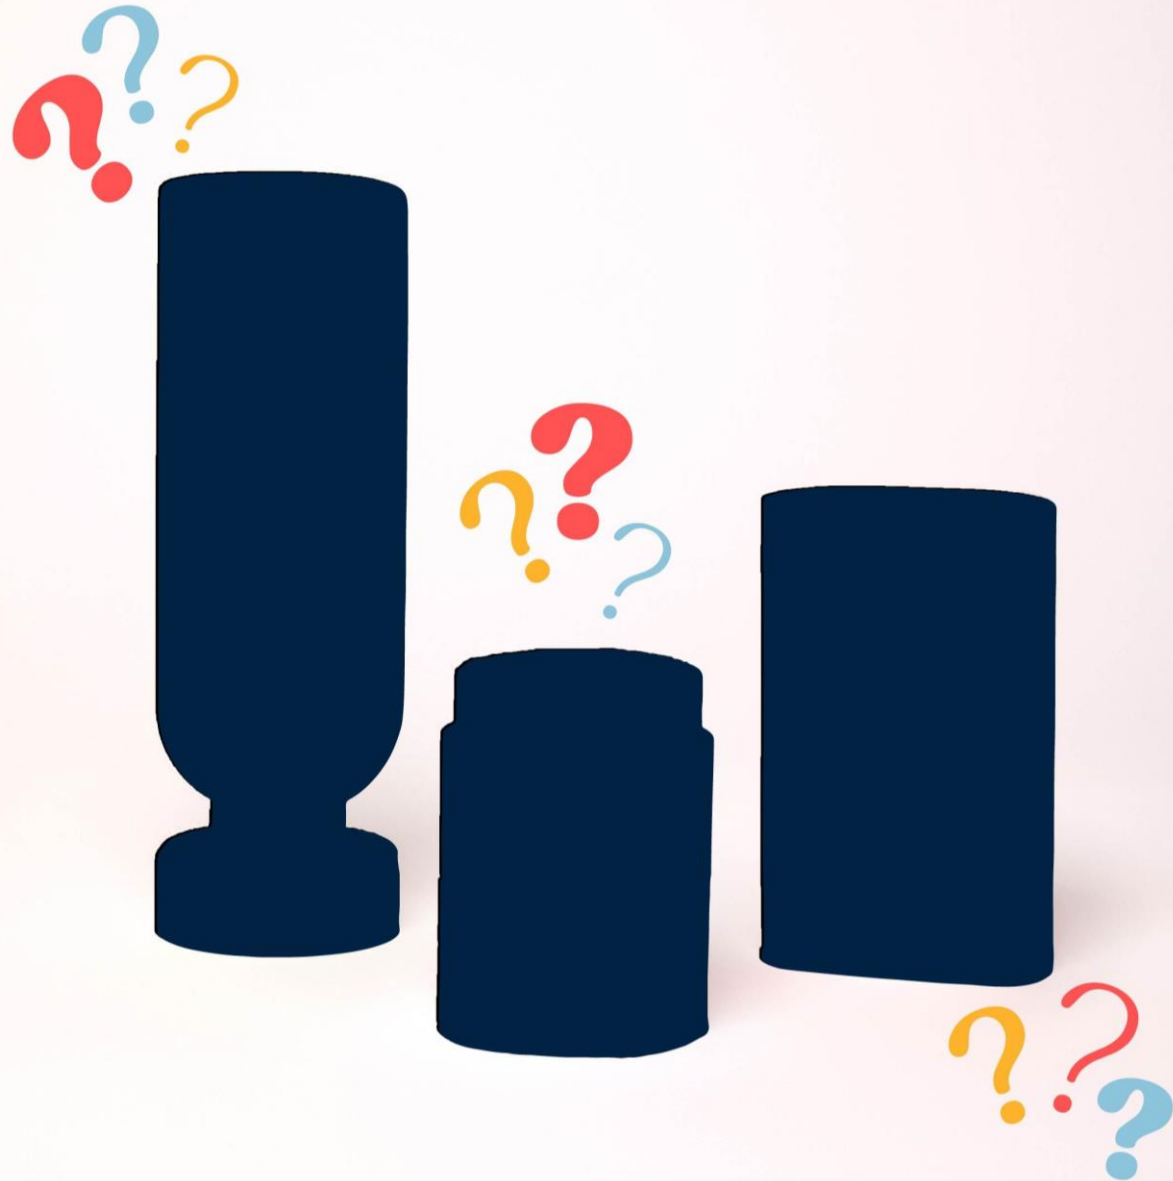

**In our bathroom bins...**

**single-use plastic**

**...And in our oceans**

# So we created refillable personal care products

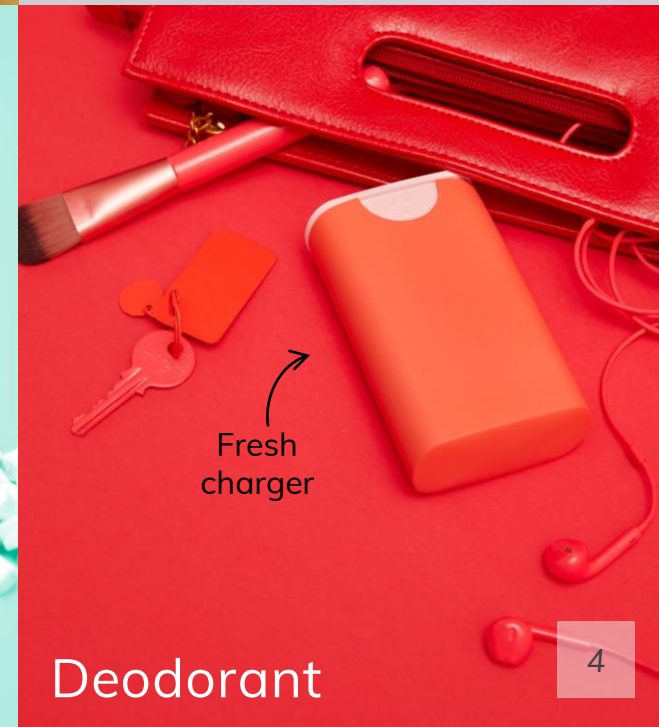

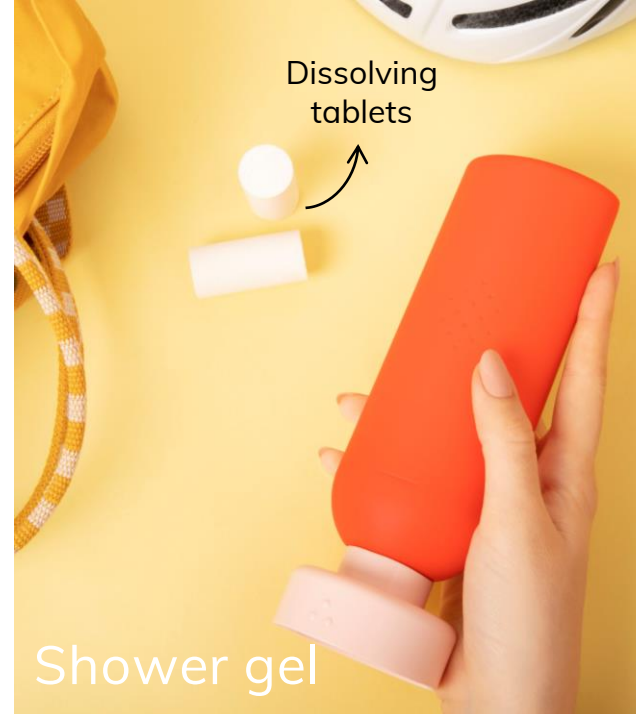

Keep the reusable cases, made of recycled plastic...

... And just pop in our refills, wrapped in cardboard...

... Sent directly to you, at the frequency you choose

Pretty cool, right?

# Introducing... the 900.care family

# Did we mention that our products are good for you and the planet?

-  95%+ natural (Rated 93+/100 on Yuka)
-  Great customer experience (rated 4,8/5 by our beta testers)
-  Single-use-plastic free
-  Lighter to ship
-  Made In France

**Our goal is to inspire everyone  
to act for a better future,  
one refill at a time**

# The Humans behind 900.care (that's us)

We hate it when the toothpaste is stuck at the end of the tube

We believe being eco-friendly should be fun and easy

We like building things and having a positive impact
