

AGLET IS BUILDING A LOCATION

BASED COMMERCE CATEGORY

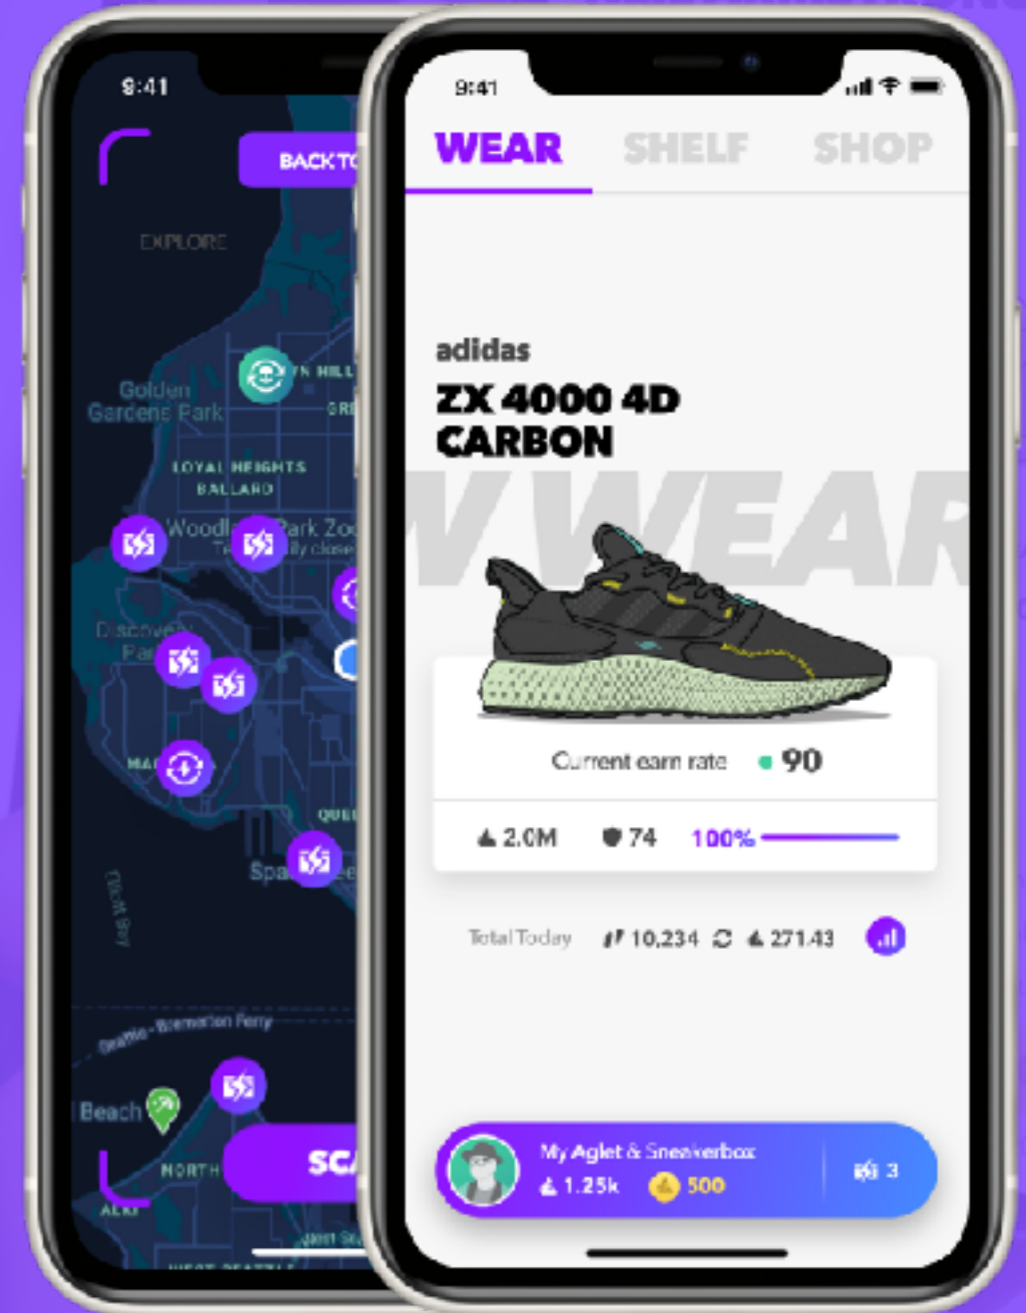

where the VIRTUAL and the PHYSICAL fuse into one.

How the game works

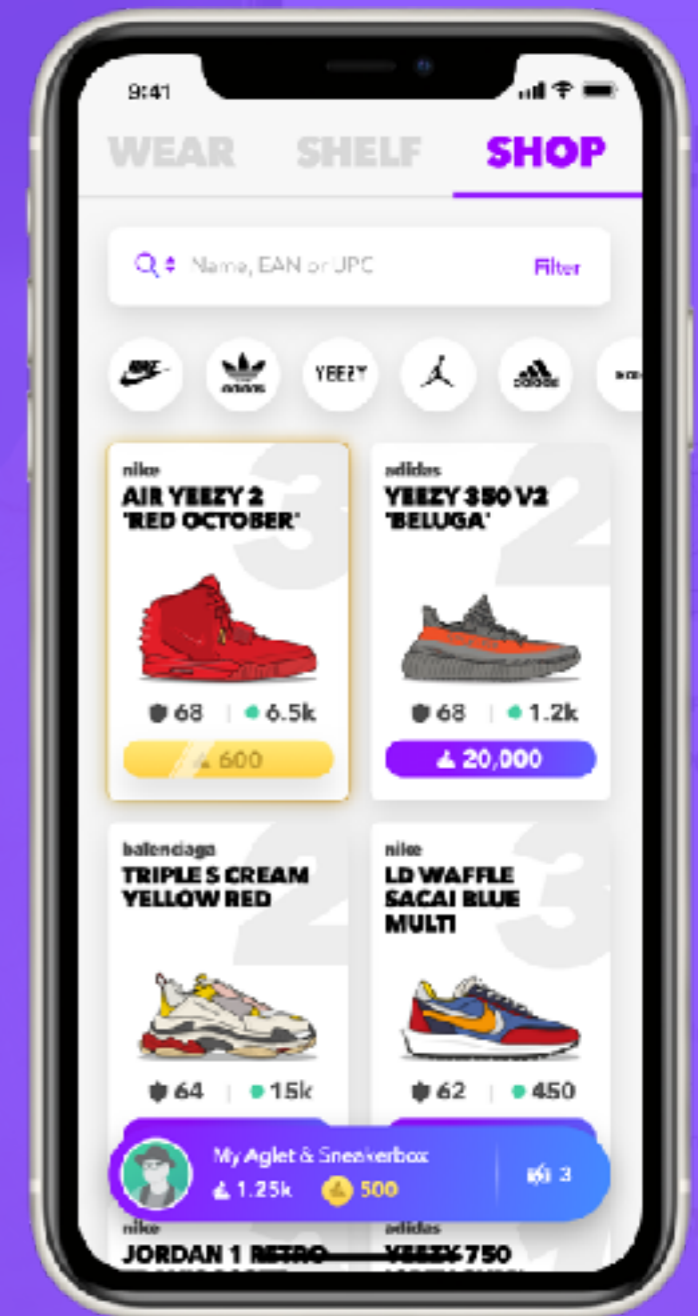

1 Wear

You'll walk around wearing your favourite sneakers and earn **Aglet**, our in-game currency, whilst searching for interactive, location-based **Stations** & **Stashes** hidden in your city and around the world.

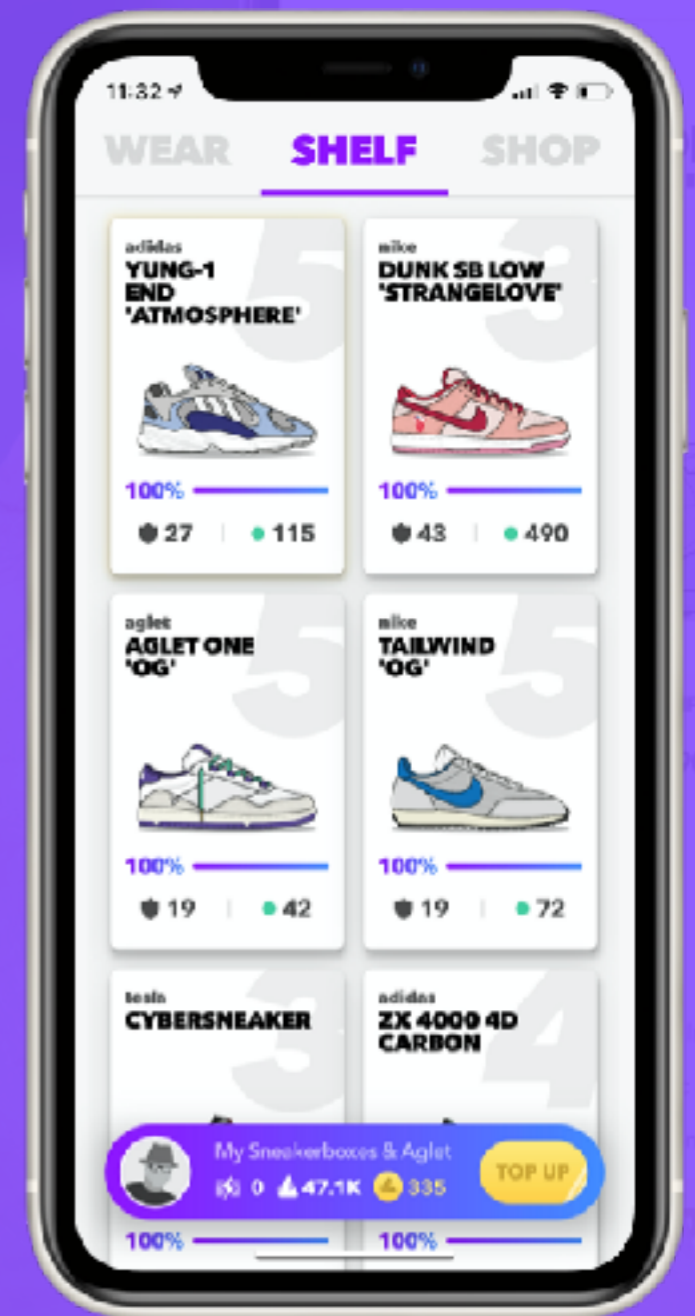

2 Shop

Cop the sneakers you'll never get in real life! With **"shock"** drops in the Shop, you will want to check our updates **obsessively** to own one of few sneakers or items in the game! On top of that you'll enter competitions where you will be able to cop **REAL PHYSICAL Sneakers** - that's right. Your chance to win **HUGE** ticket items for real.

3 Shelf

Live the fantasy of having all the most desired sneakers and gear at your fingertips! Sneakers and other items purchased from Aglet Shop will be put on display here - allowing users to “flex” or show off their collection. Seeing your collection build up will further encourage the urge to collect even more!

What's coming next

- 1** **SECONDARY MARKETPLACE** for selling & trading - Drive marketplace dynamics and grow in-game economics
- 2** Shelf customization - Flex & create FOMO (Items, styles, aesthetics)
- 3** Avatar customization - Swag & Flex (Streetwear, sneakers, jewelry etc.)
- 4** Multiplayer + Co-operative gameplay (Forming crews, leaderboards etc.)
- 5** Additional ways of earning Aglet (Events, Quizzes, Challenges, Seasons etc.)
