Quality assurance

## Who we are?

Avocado Technology is a mobile and web development company with headquarters in Luxembourg and a satellite office in Kiev, Ukraine.

**Our services** include web and mobile development, QA engineering, testing, UX/UI design and product management.

**We focuse on** cutting edge technologies such as React, React Native and Flutter which allow us to develop scalable cross platform products in the most efficient way thus saving our clients time and money.

**Our clients** range from young to experienced entrepreneurs, early stage to mid-stage startups and marketing agencies.

Projects completed

20+

**3,5** Years of growht

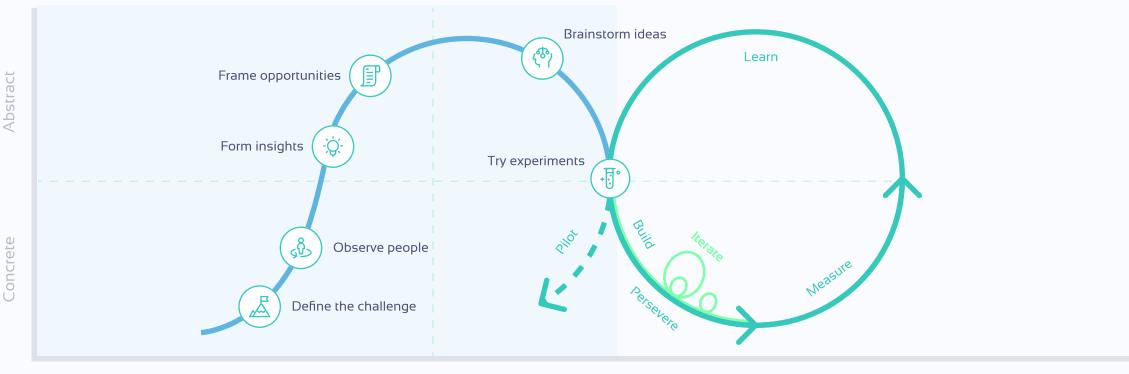

Team members

# Our approach

## AGILE + LEAN STARTUP

At Avocado Technology, we treat projects as if they were our own and make sure your app is cutting edge and scalable in the long run.

Customer problem

**Customer solution** 

# Contract types

## 😵 Fixed price

- Small & medium projects
- Defined requirements
- Little client's control
- Waterfall methodology

## Time & Material

- Medium & large projects
- Evolving requirements
- Significant client's control
- Agile methodology

## <u> </u> Bedicated team

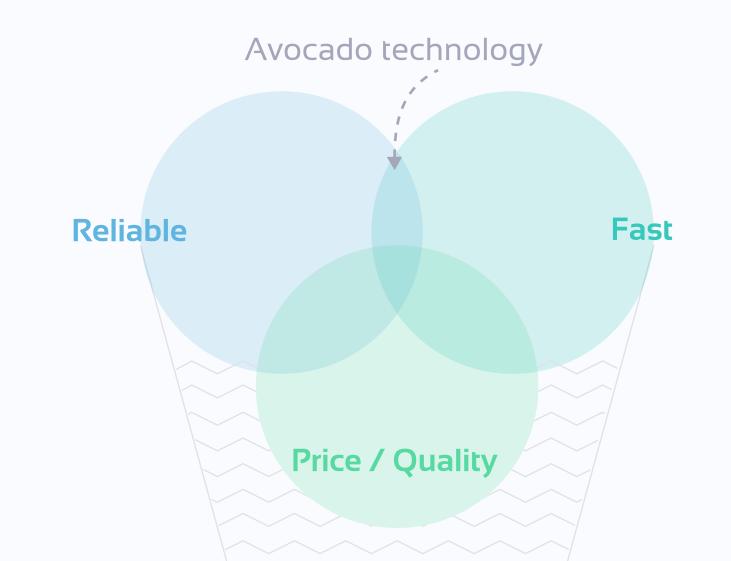

- Large projects
- Evolving requirements
- Full client's control
- Agile methodology

## **RATES PER ROLE**

- Quality Assurance Engineer \$25/hour
- User Interface / Experience Designer \$25/hour
- React / React Native Developer \$35/hour
- Sr. React / React Native Developer \$50/hour
- Project Manager \$30/hour
- Node.js Developer \$35/hour

## Custom-tailored speed launch

Most of our clients are entrepreneurs who are looking to launch quality mobile and web products fast. They have a clear vision of where they want to be and we help them achieve their goals.
