OLFACTORY EXPERIENCES IN THE POINT OF SALE

CONTACTLESS FRAGRANCE DIFFUSION

The ongoing health crisis has made it necessary to constantly find new ways to allow consumers to enjoy fragrances at the point of sale—to welcome them, share new products with them, and invite them to travel into the world of your brand. Scentys offers a top-quality, interactive olfactory experience that could not be simpler to use!

## NEW CONTACTLESS FRAGRANCE

---

The Hubble fragrance diffusion system allows your customers to discover new fragrances with no contact required. They can simply move their hand over a point of detection, and the diffuser will be activated for 30 seconds. An intuitive movement, immediate diffusion, accurate reproduction of fragrances...

[ 1 ] Smell diffusion

[ 2 ] Scentys Technology. Hubble, easy to install

---

[ 3 ] 20 cm contactless sensor

---

[ 4 ] Fragrance diffusion (30s)

---

## FRAGRANCE IN CAPSULES: A PATENTED SCENTYS TECHNOLOGY

---

This technology relies on a cold-air, fully dry diffusion process. The capsules contain small polymer beads filled with pure fragrance concentrate, with no alcohol or solvents. When air blows through them, they diffuse the fragrance into the air subtly, lightly, and evenly. Scents diffused are identical to the original.

Diffusion is instantaneous and there is no after-scent, so when the capsule is changed, only the new fragrance is present. The system is safe for health and the environment. Capsules are eco-friendly, recyclable, and made in Paris.

## ABOUT SCENTYS

---

Scentys was founded in 2004 by David Suissa, an engineer with a passion for technology and perfume. The company invented the fragrance capsule, an exclusive and patented innovation, and specializes in fragrance diffusion. With a 17-year track record, Scentys offers top-quality diffusion, safety of use and technical and fragrance expertise. We are a French company that works with our partners to realize their fragrance diffusion projects, create olfactory experiences, and design and manufacture fragrance diffusers and capsules.

### CUSTOM DIFFUSERS & CAPSULES FOR THE HOME & CAR

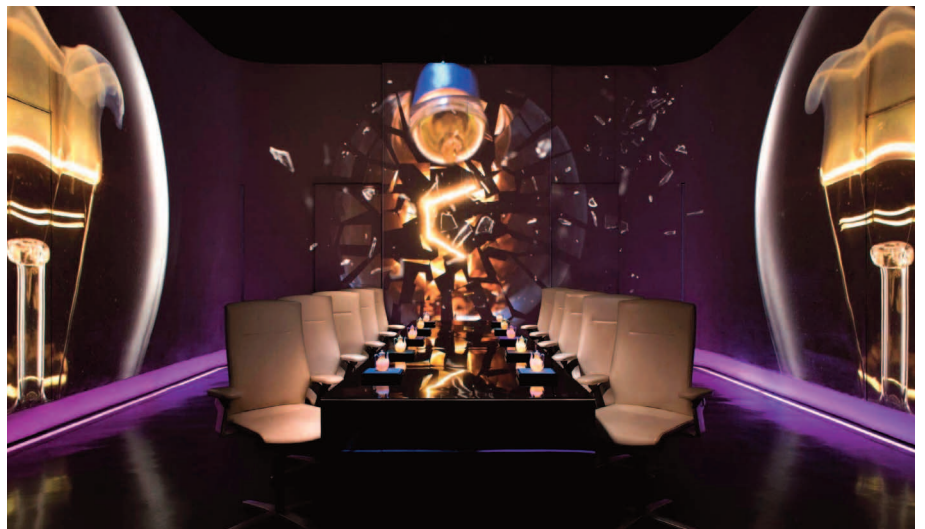

---

We take the designs and fragrance concentrates of our partner brands and work with them to develop their products, from design to production.

### OLFACTORY EXPERIENCES CUSTOMIZED SYSTEMS

---

We adapt the fragrance diffusion system to suit the venue, the medium, and the desired experience. New rituals, unique events, interactive experiences... we support you at every step of your custom projects.

### SCENTED AIR IN ANY LOCATION

---

Scentys fragrance diffusers deliver olfactory solutions that are adapted to any venue. Our technical team works with you to integrate points of diffusion and ensure that fragrance diffusion is optimal.
