

# START-UP Program

## ACCELERATE YOUR GROWTH WITH A TAILORED INTELLECTUAL PROPERTY (IP) STRATEGY

### LAVOIX offers a dedicated program to start-ups including:

- An **IP package starting at €300/month** offering a tailor made advice on all the areas covered by the firm: patents, trademarks, designs, contracts and litigation.
- This package gives **access to flat-rate IP services** to help start-ups manage your IP budget throughout the development of your business.

### PI PACKAGE: SERVICES INCLUDED

- An half a day of training each year to provide you with the basics of IP
- A single contact person, responsible for your IP, to support you in your strategy, answer your questions, available by mail and/or by phone for more responsiveness
- The involvement of your LAVOIX contact in your internal IP strategy meetings
- The identification of your intangible assets (patents, trademarks, designs and models), eventually with a brief prior art search
- An open access to a toolbox including IP documents: information on the different IP titles, disclosures, declaration of invention, confidentiality agreement, etc.
- A free online access to your portfolio via our IP DATA<sup>2</sup> management tool
- A monthly withdrawal of the subscription that can be revised each year according to the evolution of your business. Minimum commitment of 12 months.

The subscription of the monthly subscription also gives you access to flat-rate IP services for the most usual operations: patentability studies, preparation and filing of IP securities, reply to the official letters of the offices, studies of freedom to operate, research and contracts, etc.
