

# Evolution Energie

ERP software solution for energy transition and decarbonation

[www.evolutionenergie.com](http://www.evolutionenergie.com) | [sales@evolutionenergie.com](mailto:sales@evolutionenergie.com) | @Evolution\_NRJ

## COMPANY DESCRIPTION

- French company founded in 2010
- 100% Software Editor
- Specialized in Energy

Erwin Guizouarn, CEO

## CUSTOMER PAIN POINT

Energy management organizations is handled with Excel, with risks up to billions of €. Managing complex energy contracts, for multiple assets across the world, requires experts and industry grade proven software solutions.

Evolution Energie combines the financial vision of energy (in €) with the environmental vision of energy (in KPIs and MWh), thus becoming a cross-organization solution.

## KEY FEATURES

- Multi-commodities, sites & countries
- Automate data collection & invoice computation
- Operate on energy grids and markets
- Implement hedging strategies
- Comply with regulations (SOX, EMIR, REMIT)
- Report carbon footprint
- Handle PPAs

## BENEFITS

- All-in-one solution
- International coverage
- High return on investments

## Utilities

## Large industrial Corporations

## Transports

## Cities
