Electronics Products Manufacturing Flow

How you quote your product now

How you will quote product yourself tomorrow

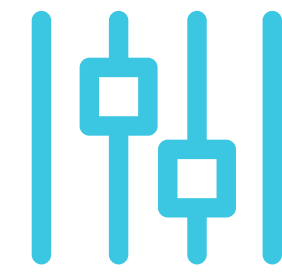

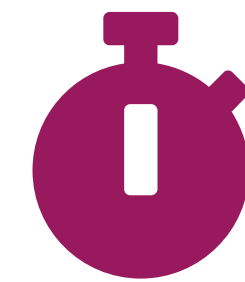

Problem

Restricted technology access

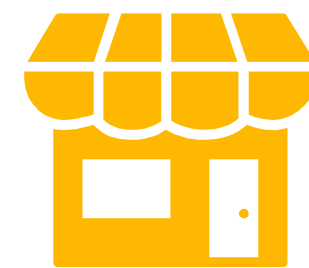

Online quoting is too much restricted and digital in production not sufficiently present

Existing tools are too much generic: they're missing specific parts of industrial

Quoting is too long: ~2 weeks

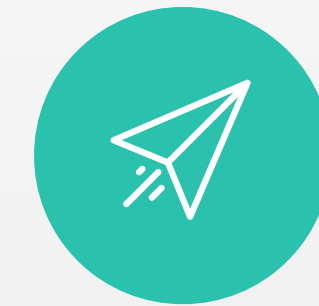

Investments in tools and infrastructure is an important concern

Customers wants more support, transparency and efficiency

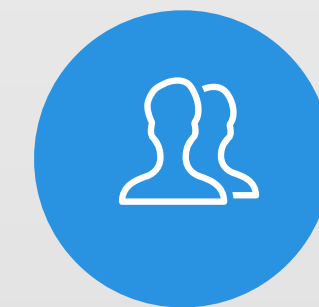

We make digital solutions for industry

A solution to quote and order industrial projects online

A solution that automates and assists production

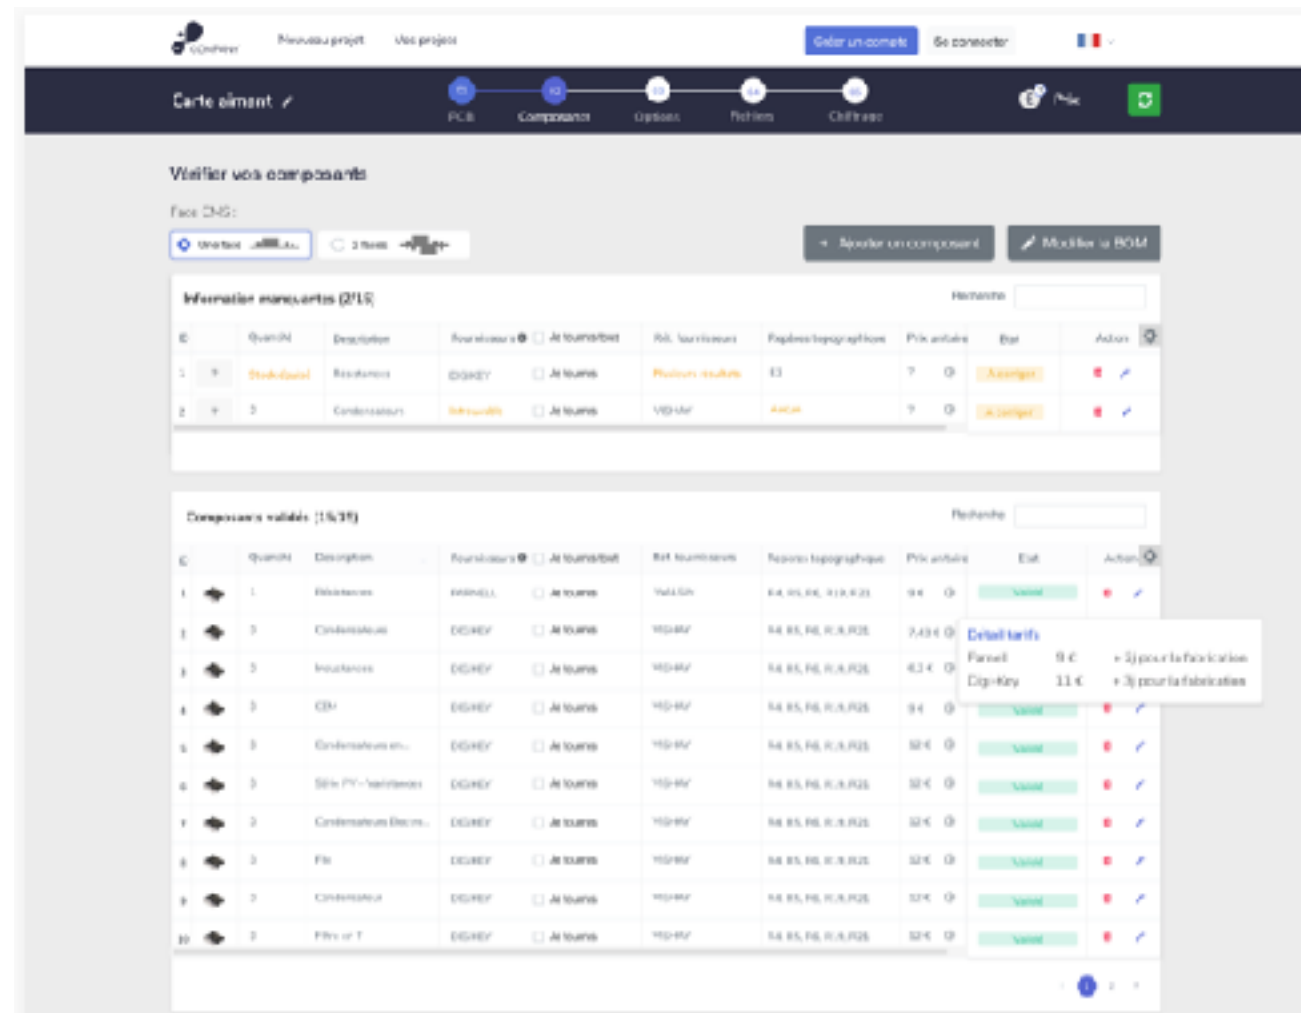

Easy bridge to existing solutions

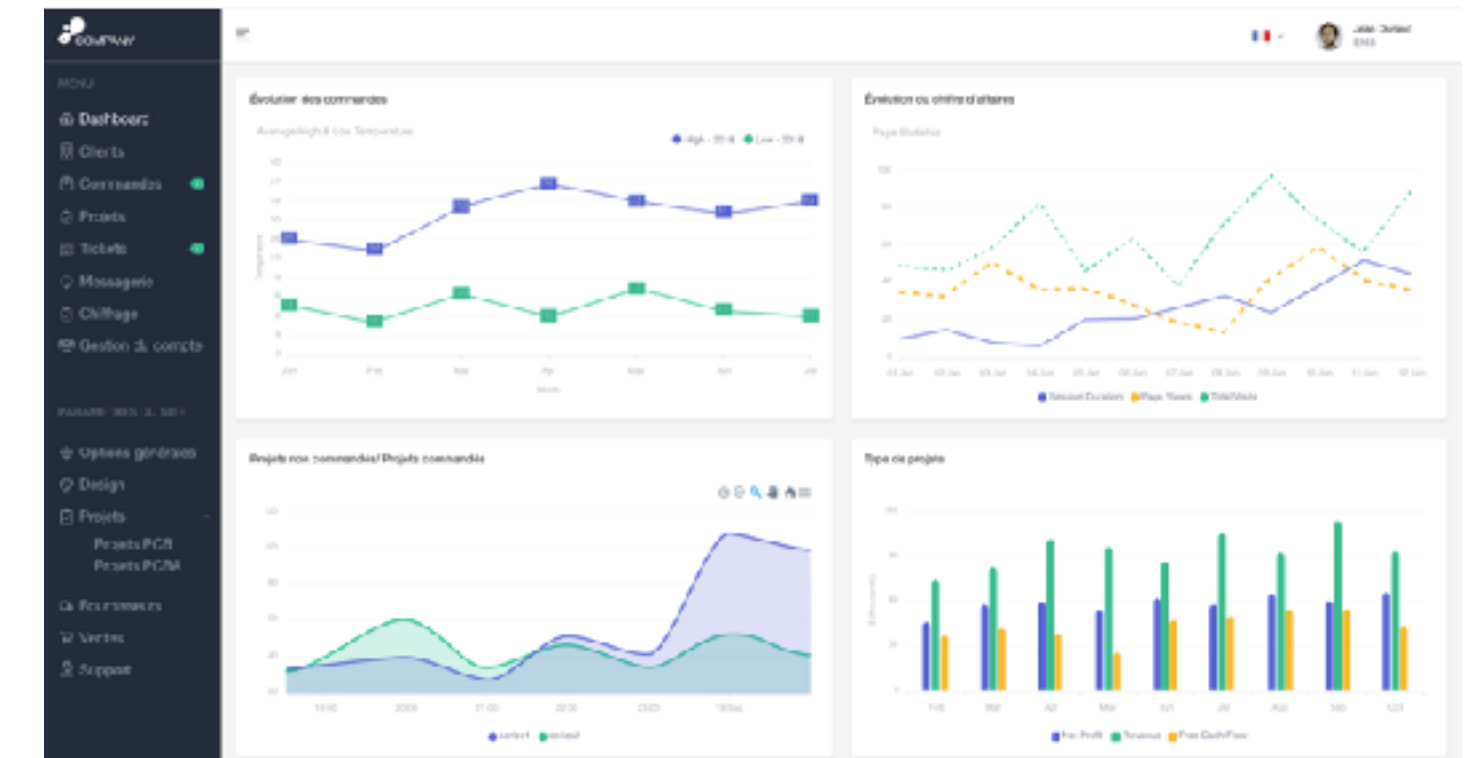

SaaS : No infrastructure required

Intuitive solutions for industrial

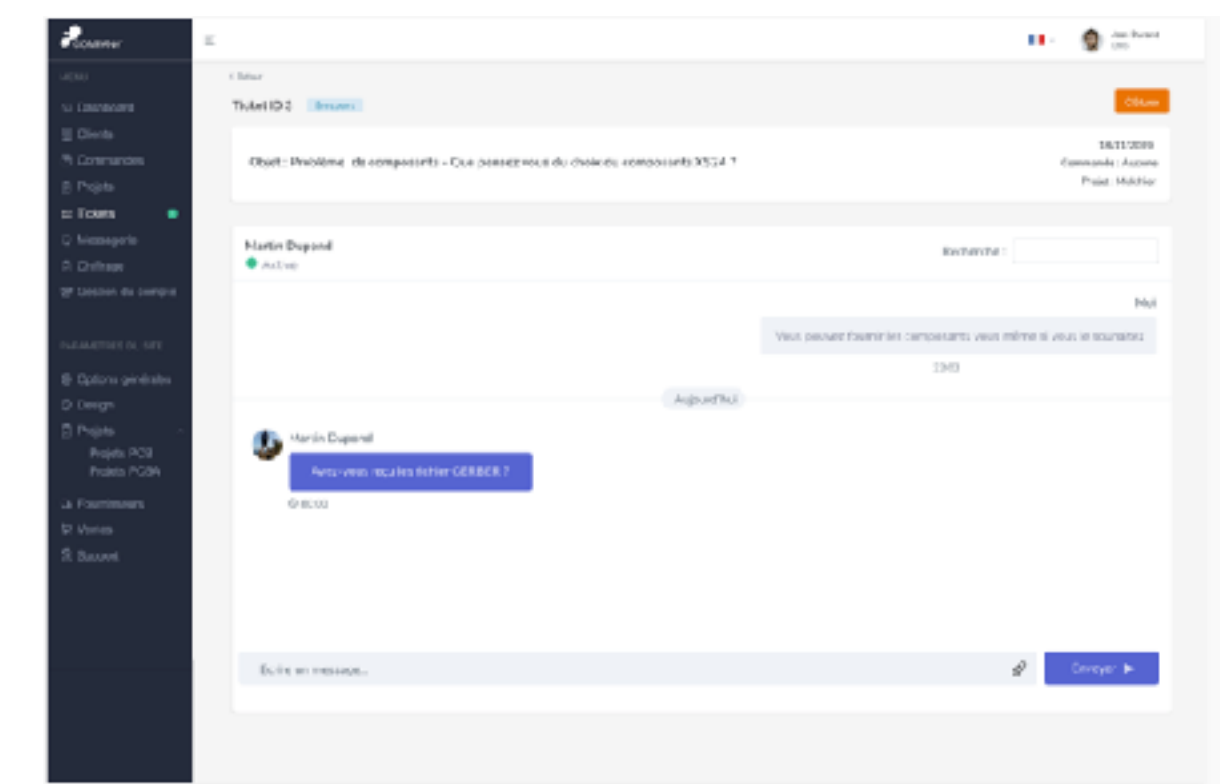

Live online pricing for customers

PACE to improve productivity

Customer support

Internal pricing and manual pricing

**Focus on your customer support,
we do the rest**

The next global industry solution
