## “EVERYDAY LIFE FOR ACTIVE WHEELCHAIR USER”

Revolve Air aim to solve common problems for millions of active wheelchairs travelers, a new way to save space and time.

### LARGE TRUNK SPACE CAPACITY

Transporting Universal Active Wheelchair in your car may required large Truck space. It obliged the users to ask for assistance or invest more money to buy bigger cars.

### OBLIGE TO CECK IN THE WHEELCHAIR

Flying on airplanes can be an annoying process for any person, The risk of a damaged or lost wheelchair is terrifying most wheelchairs are stored in cargo.

### CONSTANT NEED OF ASSISTANCE

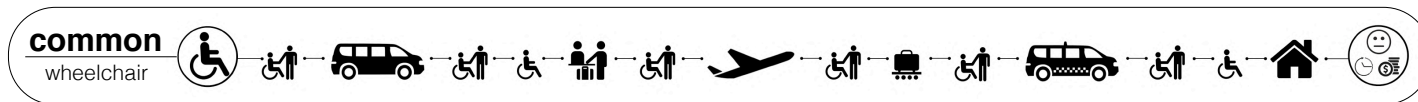

Wheelchairs users need constant assistance from the aircraft seat on an arriving flight through the airport to the baggage claim area, terminal entrance, or vehicle pick-up location.

**“REVOLVE MAKES THE USERS SAVE  
TIME AND MONEY TO IMPROVE THE  
TRAVEL EXPERIENCE”**

EVERYDAY LIFE

VS

Revolve Air aim to give a total new independence to all active wheelchair users, which commute and travel everyday. No more needs to check in the wheelchair at the airport hours before the flight, with the risk to damage the valuable and necessary chair. No more long waiting at the luggage delivery. No need to store the wheelchair in large car trunk giving them the freedom to drive small cars or take any taxis available. Plus less need of assistance along the journey for more independence and time to invest for what really matter: the freedom to travel light and efficiently.

FOLDING MECHANISM

## “DESIGNED TO MEET THE DEMANDS OF TODAY”

TO BRING **NEW AND MORE EFFICIENT** ACTIVE WHEELCHAIR TO **EVERYDAY LIFE**

**60%**  
LESS SPACE  
WHEN FOLDED

Opening or folding the wheelchair is a simple action, requiring nothing complicated and no feats of strength. Both 24 inches wheel can collapse along the same hub together with the seat and the backrest, guaranteeing a unique compactness and transportability, not found elsewhere. Its special foldable wheels even give the new wheelchair an attractive appearance when full sized and when being stored.

“SUITABLE FOR **ALL KIND OF PRIVATE AND PUBLIC TRANSPORTATION**”

AIRPLANE

No need to check in the wheelchair before the flight, ask for assistance and waiting for hours at the luggage drop. Freedom to travel light like everyone else.

COMPACT CAR

No anymore needs to drive big MPVs but the freedom to own or share compact and affordable cars for more freedom and independence.

TRAIN

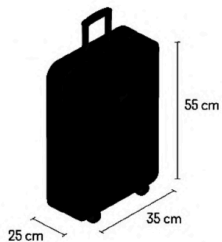

Traveling with all kind of Public transportations with modularity and style. Revolve fits all type of public transportation and cabin luggage requirements.
