

# Sofie

Your Virtual DVM Assistant

## Clinical Answers at the Point of Need

**Sofie** is the most advanced veterinary medical search tool available, empowering thousands of veterinarians with instant online access to the most current, trusted, and credible veterinary medical information at the point of need. IBM Watson Technology® searches over 40,000 pages of the top veterinary textbooks, journals, and conference proceedings.

## Save Time Diagnosing & Treating Patients

### Optimize Your Workflow

Optimized for desktop, tablet, and mobile devices, get instant access from virtually anywhere.

### Stay Current

With over \$5,000 worth of veterinary medical content and ongoing updates, you'll always have the latest in-demand information at your fingertips.

### Save Time

Search multiple sources at once to deliver the most relevant results to support the best possible diagnosis and treatment for patients.

## Ask Sofie For:

- Drug Formulary Information
- Diagnostic Algorithms
- Specific Topic Search
- Differential Diagnosis
- Emergency Treatment for Toxins
- And Much More

Designed to respond to natural-language questions, Sofie delivers results based on context, not just keywords.

*"In just about every complicated case, there is usually something I want to look up in order to make sure I'm not missing any major differentials. In a busy practice, **just taking a minute to look up differentials is a life saver for my patients.**"*

**Melanie Vanicek**, Veterinarian

## Trusted & Reliable Content — Sofie's vast knowledge base includes:

- ✓ **Clinical Veterinary Advisor: Dogs and Cats, 4th ed.** (Côté; Elsevier 2020)
