# Enhance your heritage and make it accessible.

Lumeen is a medical device that uses virtual reality for social and therapeutic purposes for prevented audiences. We are developing a tool that allows them to travel, escape and that makes heritage and culture accessible without having to move. The use of Lumeen improves well-being, promotes social ties and revives memory. It is used for elderly people in nursing homes and senior residences, sick people in hospital, but also in disabled homes.

# Benefit from a complete offer.

Our turnkey solution includes everything you need to organize your sessions. We train and support your team for a successful and sustainable deployment.

# Immersive experiences.

## Improve well-being and social bonds

# Our partnership proposal.

## Promote cultural heritage

We have already established free co-production and co-exploitation partnerships with the following partners :

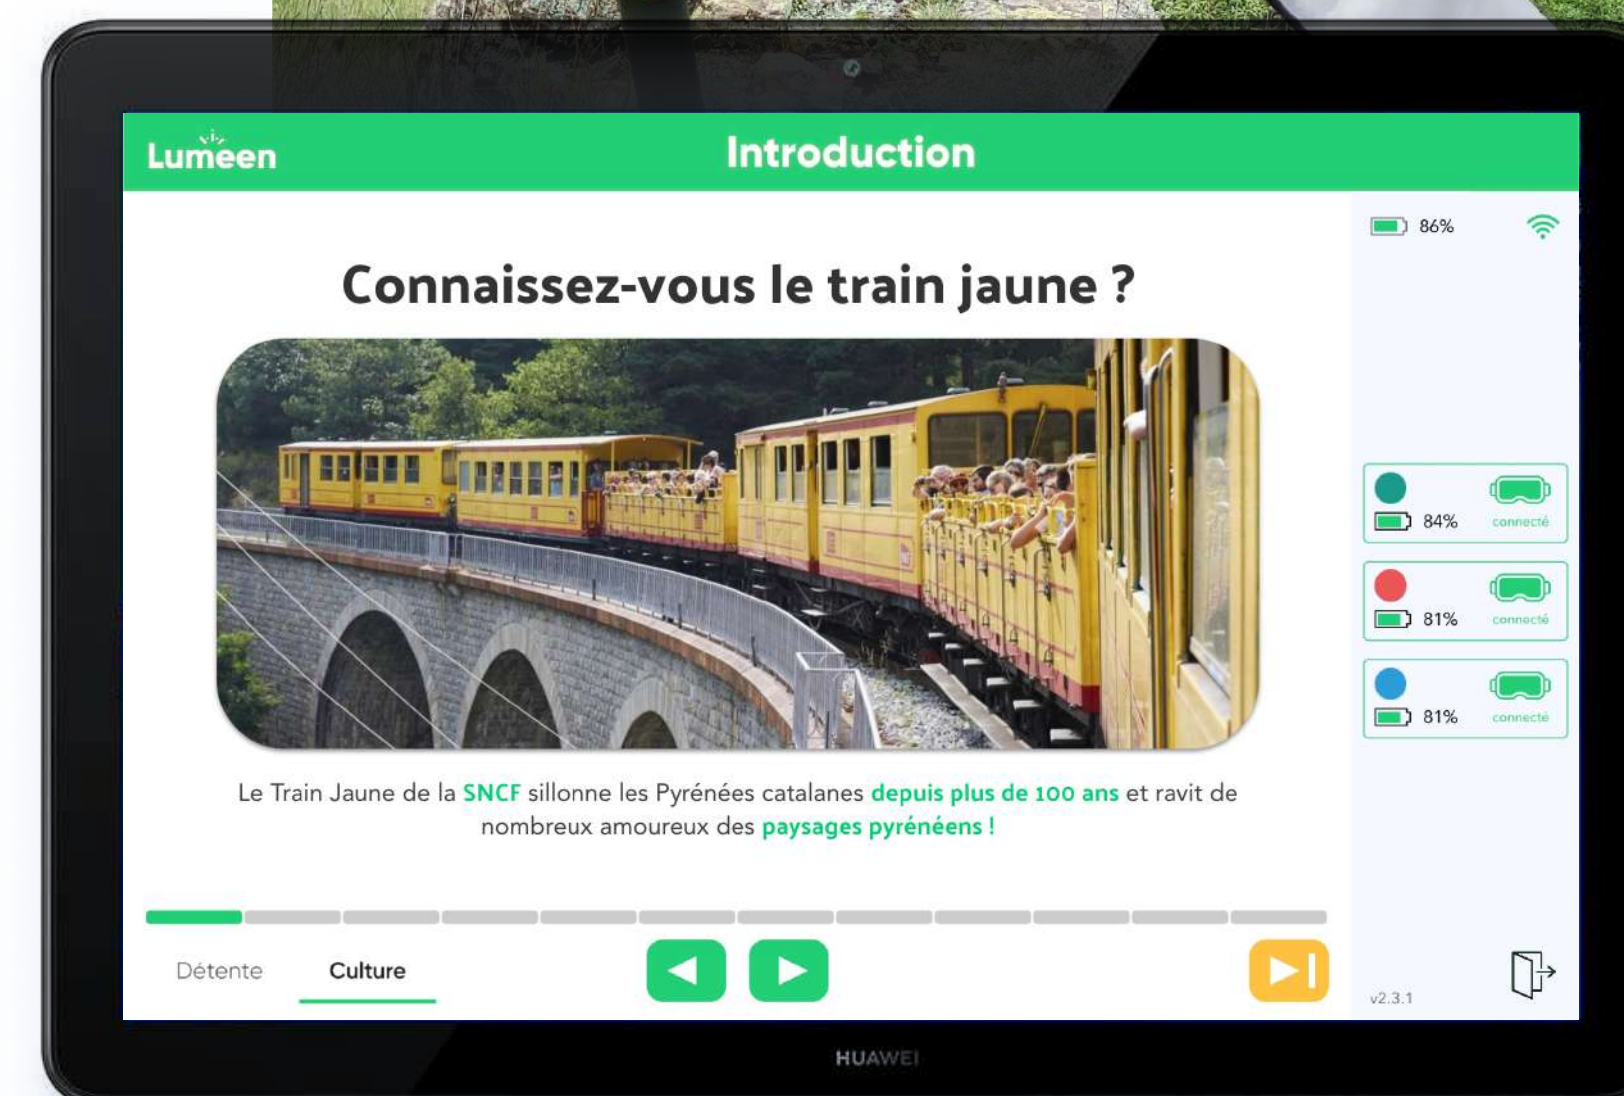

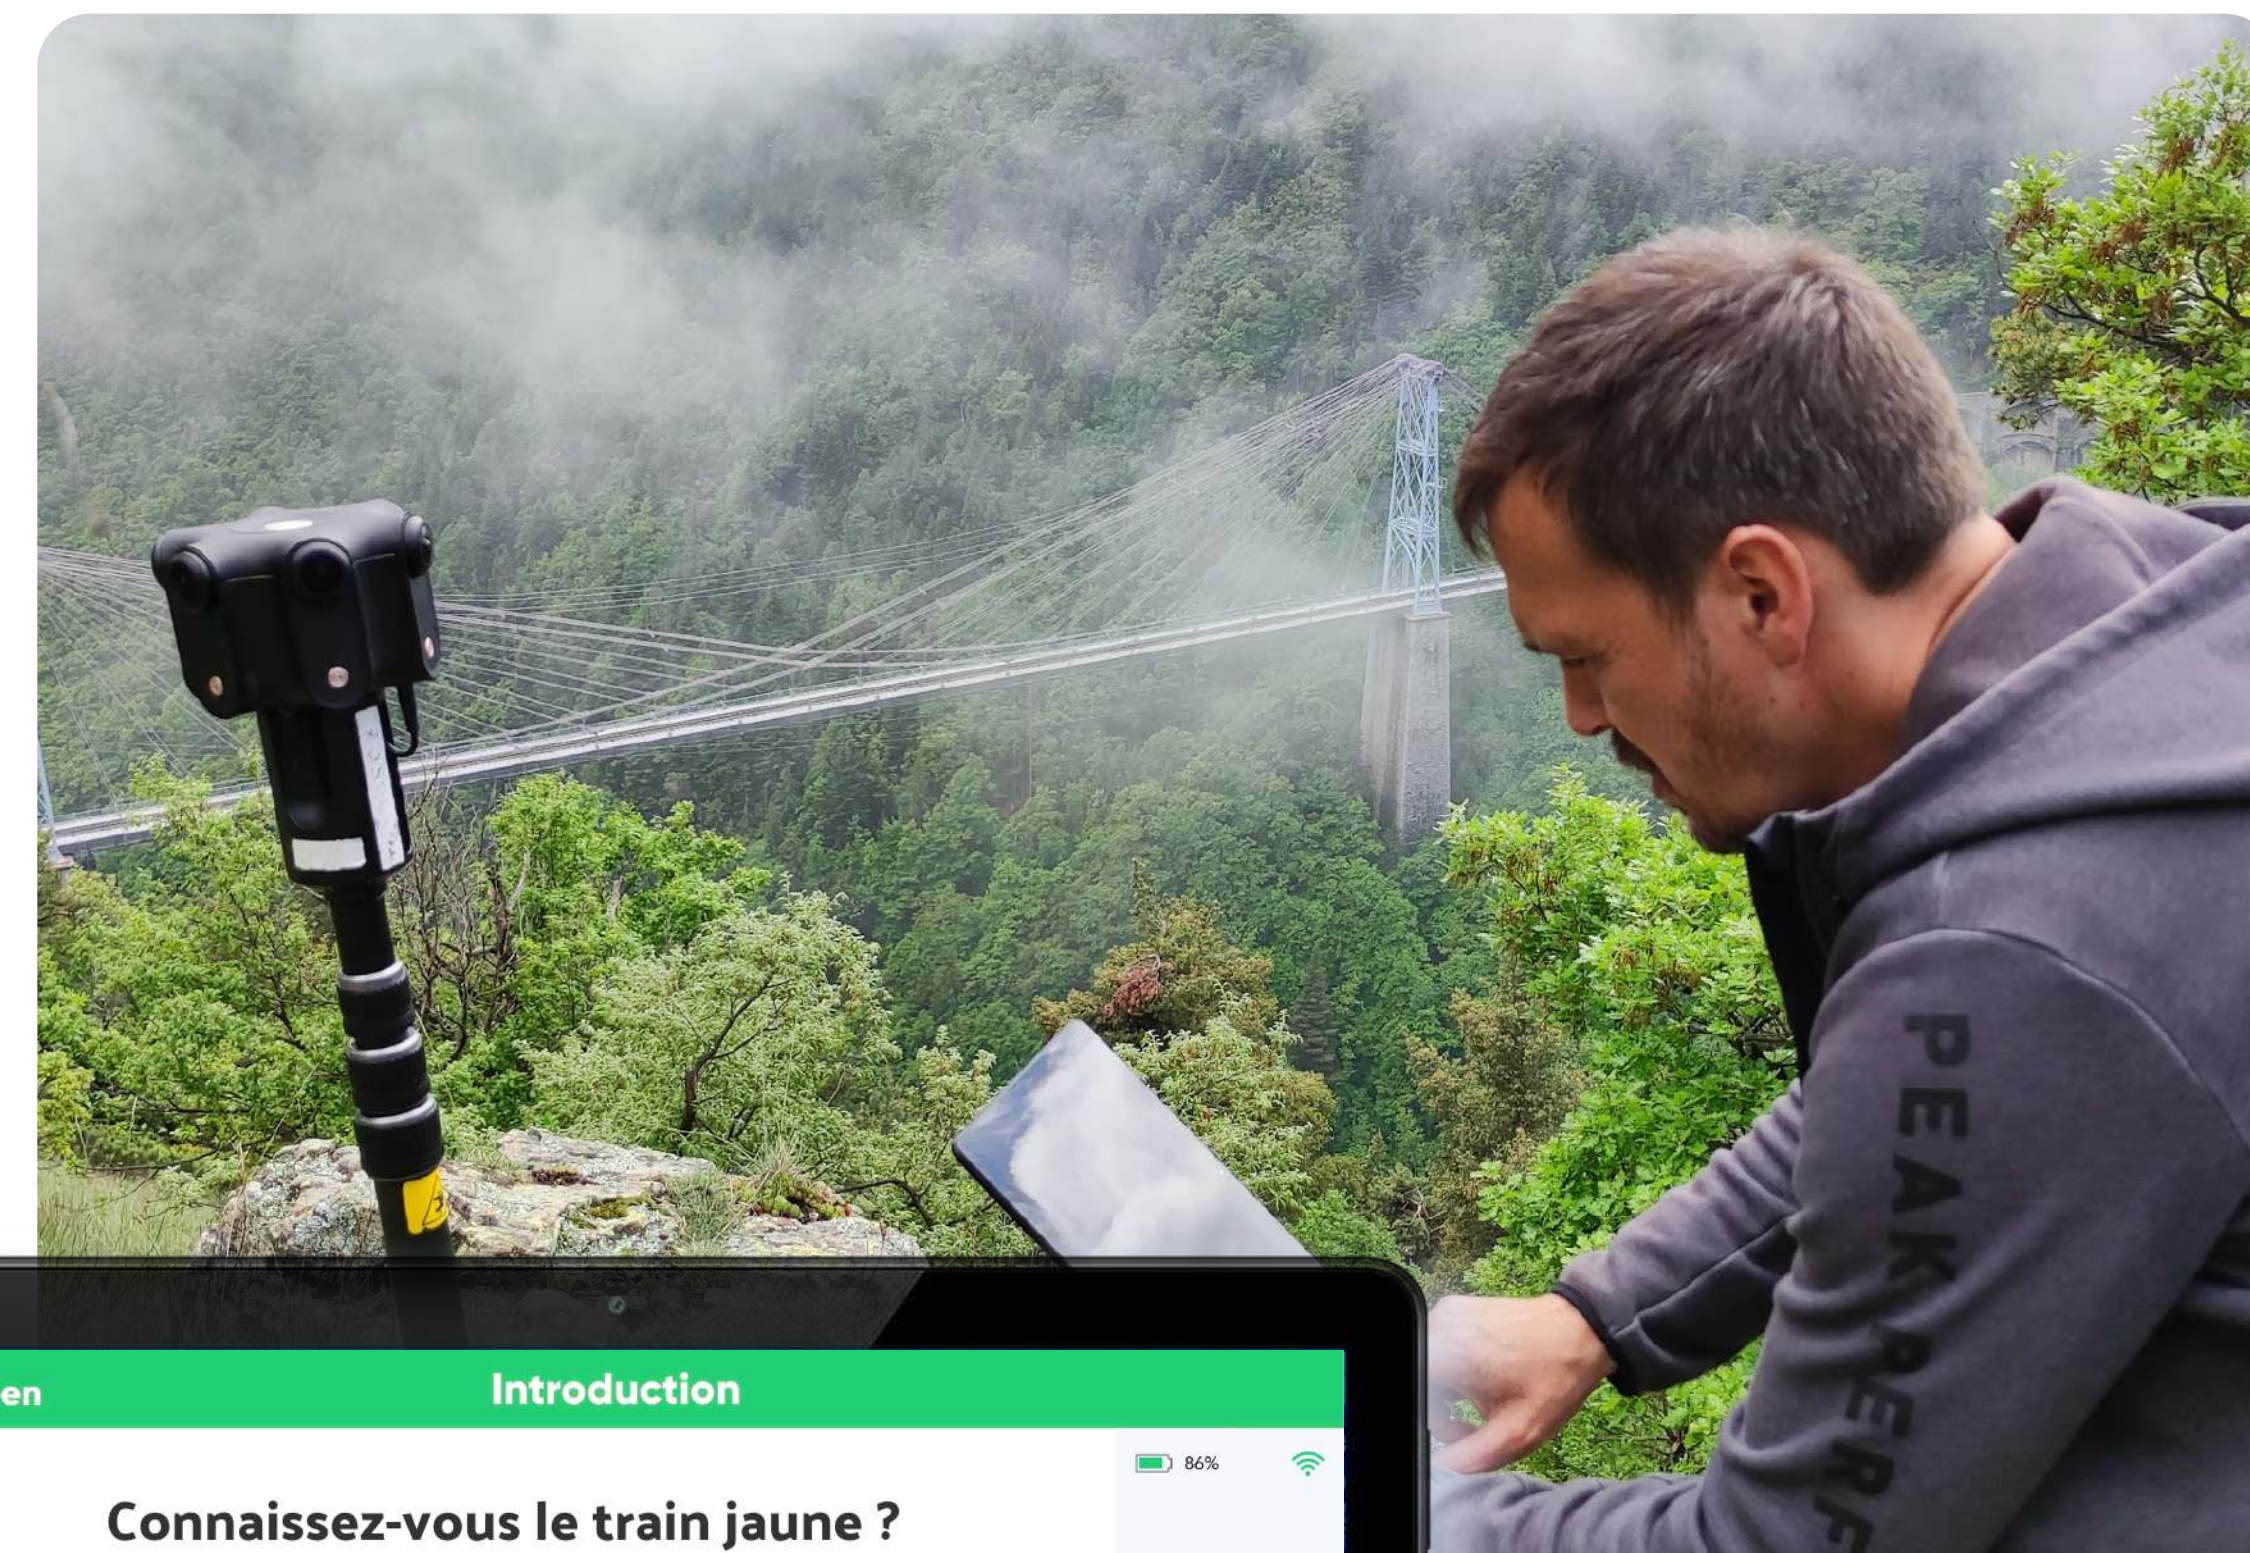

# Co-production.

## It's free and it's quality !

Our team has over 10 years of experience in producing 360 degree immersive films and has professional equipment. We work with your team to produce a virtual experience that will enhance your cultural site.

## Integrated mediation contents

In addition to the 360 images, we write and integrate mediation content to accompany the virtual visit. These mediations are made in collaboration with your teams in order to respect your editorial lines.

# Co-exploitation.

## Use the images in virtual reality or online

We give you a free access to our software so that you can use your immersive images during off-site mediation sessions. You can also use the virtual experience on your website and your social networks.

## Reach out to prevented audiences

For our part, the distribution of the virtual experience will be strictly limited to the kits distributed to the prevented audiences.

C'est encore un pas de plus vers l'objectif que nous nous sommes fixé : rendre la culture plus accessible aux publics empêchés. Plusieurs numéros du spectacle « Dingue ! » sont d'ores et déjà disponibles dans notre module Evasion.

Merci à toute l'équipe du Cirque pour son accueil chaleureux ! 🙏
