

OVIDROP

DROP & ENJOY

OUR SOLUTION

OUIDROP is a fully automated and autonomous self-service system to mix both the storage of personal belongings and the management of parcels to the final consumer. It offers a comfortable and modern secure service to your customers while simplifying the management of this service.

DROP & ENJOY

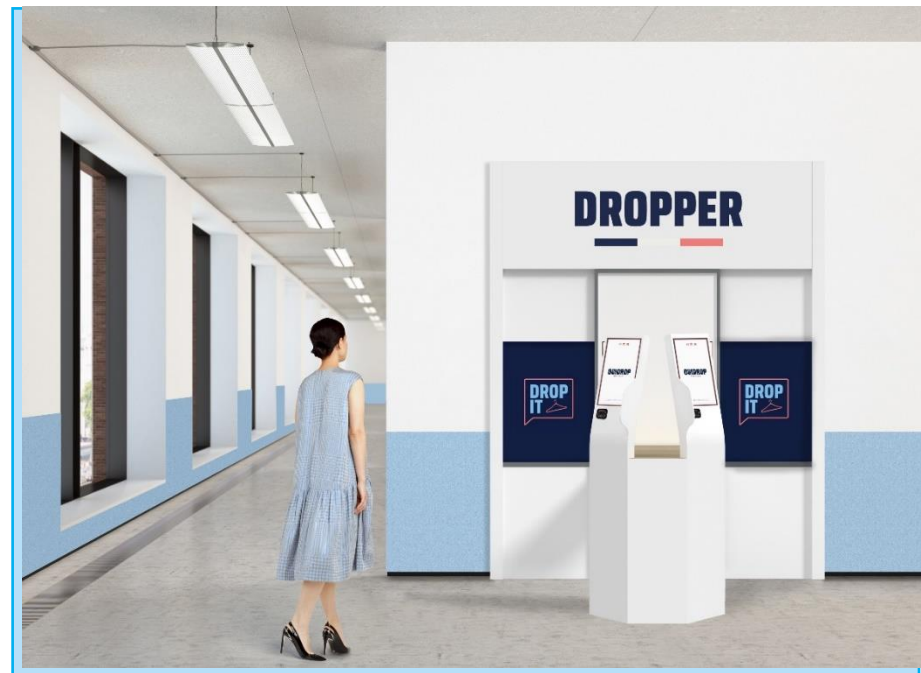

FABRICATION

FABRICATION 100% MADE IN FRANCE

RESPONSIBLE CLOAKROOM

The OUIDROP system is a dematerialized version of the classic parcel pick-up system. It allows the elimination of all single-use consumables of a classic system (tickets...). It has been designed to have a low power consumption, and a specific process allows to reuse or valorize the materials at the end of their life.

OUR PARTNER

Schneider
Electric

- Winner of the Innovative Event Challenge, VivaTech 2020
- Best Technical Innovation, Heavent Paris 2019

OUIDROP

OUIDROP X DYNAMIC SCREEN

- Delivery of the machine with TV
- Easily manage the space thanks to the Dynamic Screen platform (photos, videos, ads, social networks...)

COMMUNICATION TOOLS

T.V. : DYNAMIC DISPLAY

Communication spot, visible by everyone in the waiting line.

BANNER AT THE BOTTOM OF THE SCREENS

Communication support on each home screen.

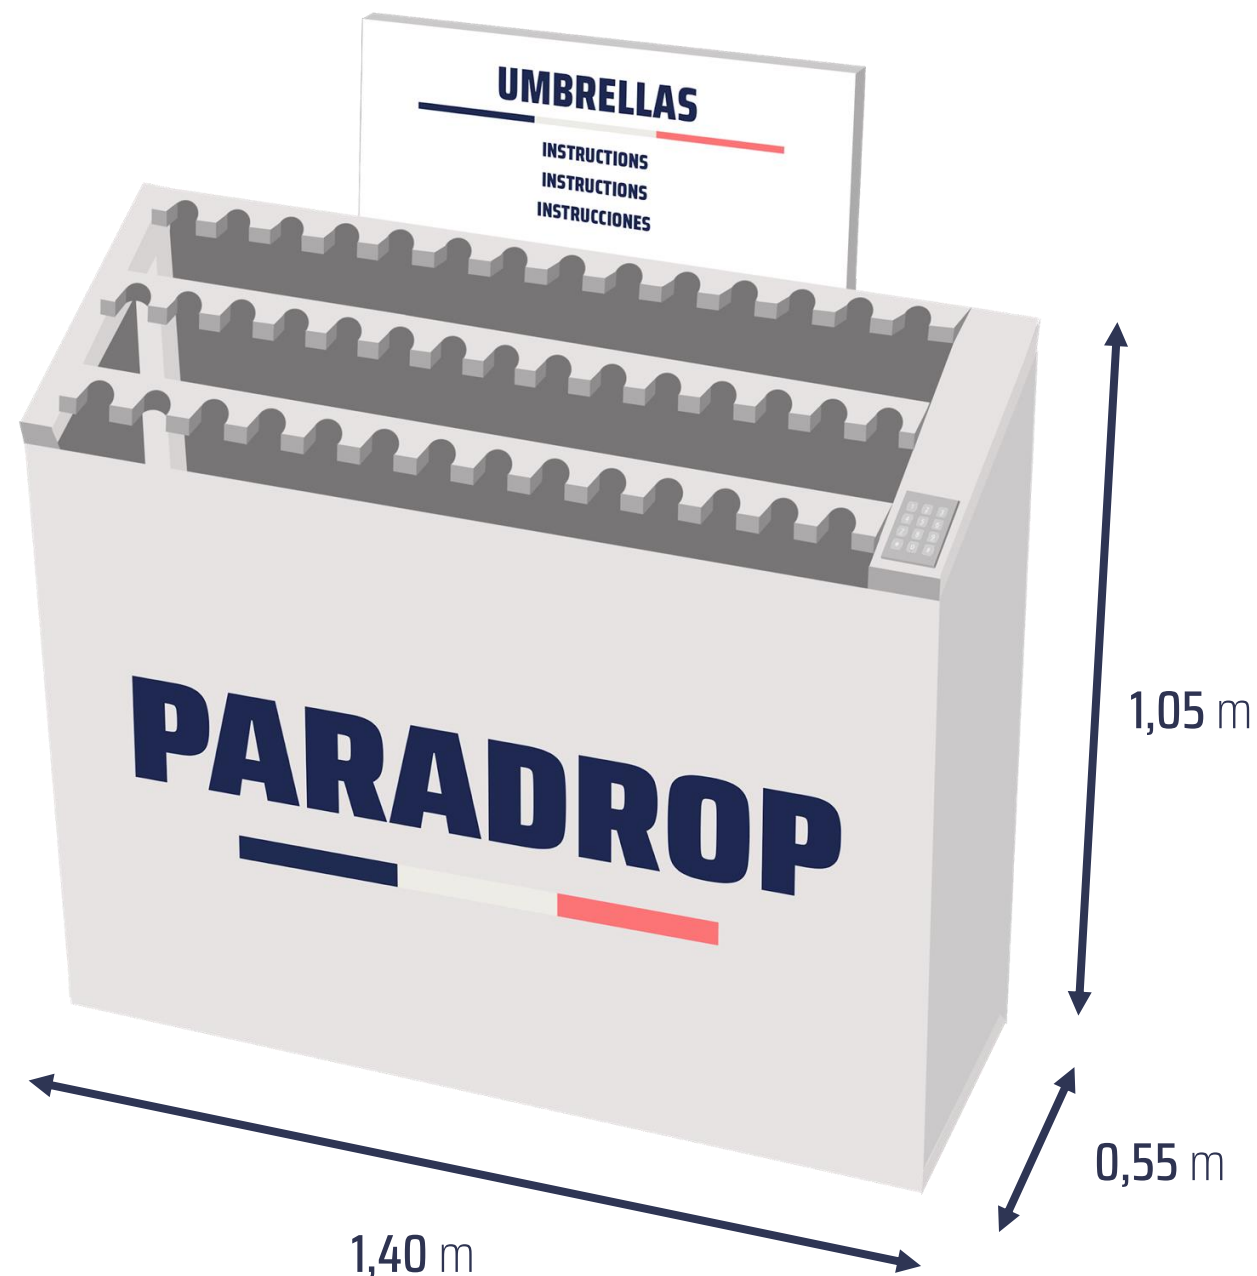

DOOR STICKERS X2

All users see the communication medium.
Most visible support.

PARADROP

To meet a need for storage of umbrellas, we thought with the Centre Pompidou to develop an automated system to store them.

3 CONFIGURATIONS

- » 15 UMBRELLAS
- » 30 UMBRELLAS
- » 45 UMBRELLAS
