Post them on 200+ job boards, your  
social networks, with a QR code and  
more.

## PRE-QUALIFY

# Pre-qualify your applications automatically

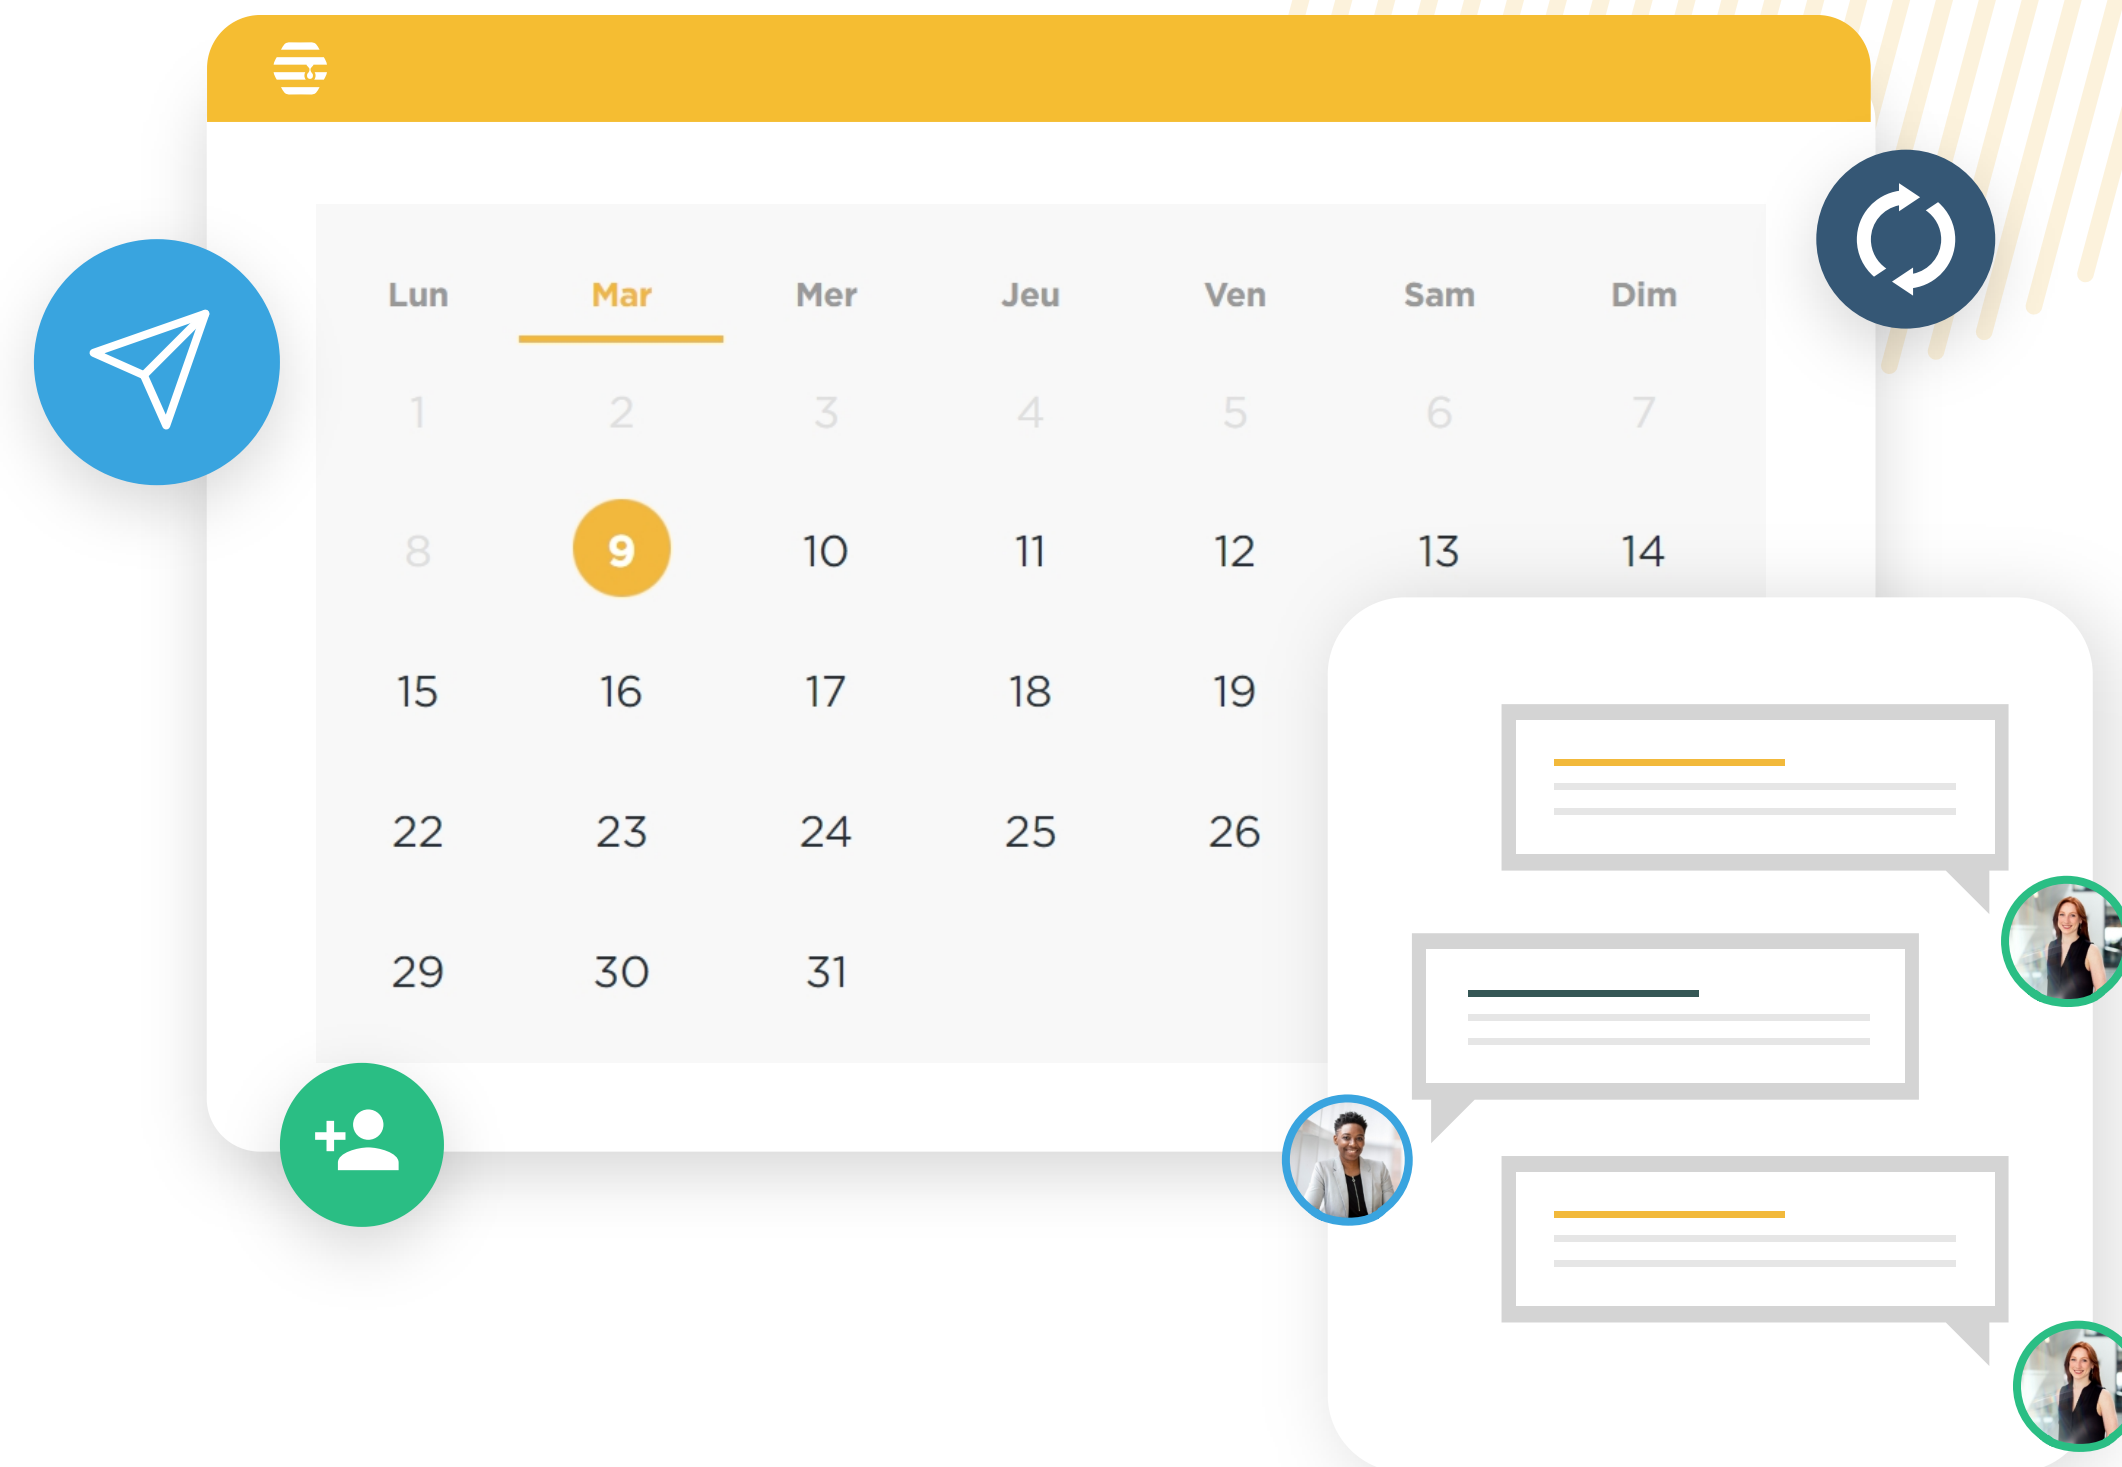

Receive pre-qualified applications based on your criteria, with matching scores and candidates videos. Identify the best ones, faster.

## CENTRALIZE

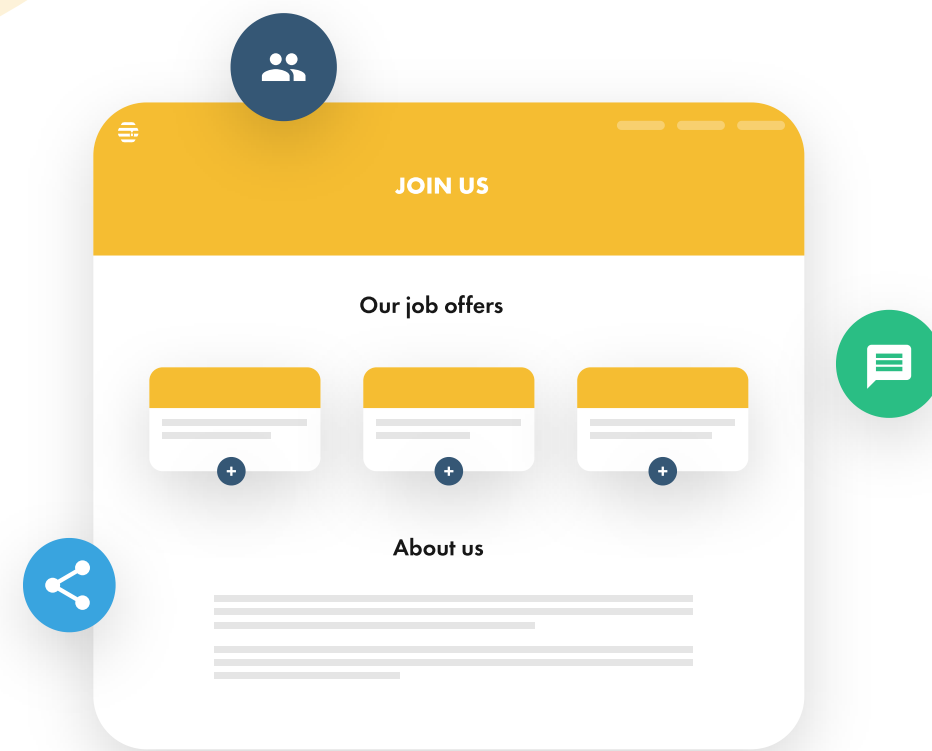

# Centralize and simplify the management of your applications

Centralize your applications, documents and communications. Manage your recruitment more easily, alone or as a team, with a single tool.

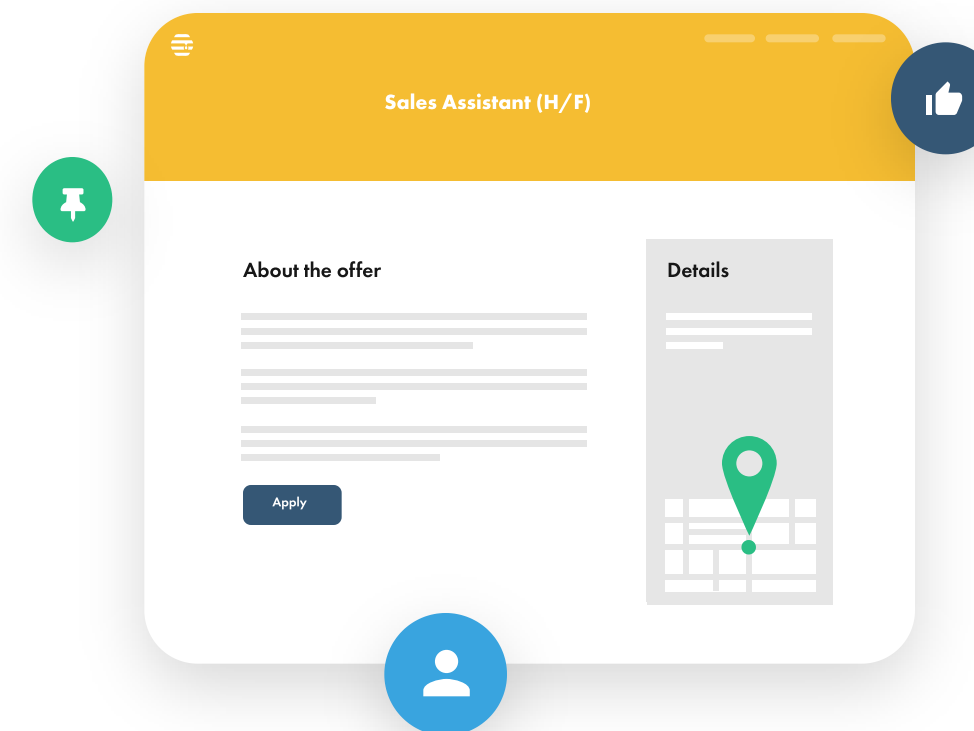

## ATTRACT

# Offer a unique candidate experience & boost your employer brand

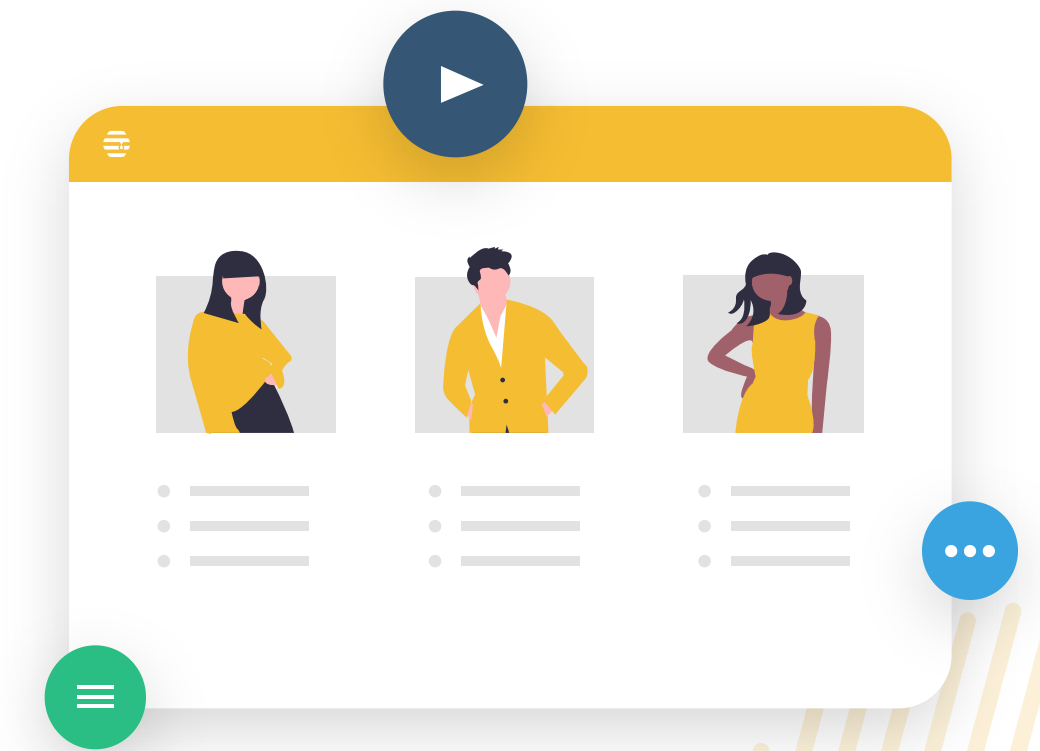

### Carreer Page

Centralize your offers on a personalized career page. Present your company and your values through it.

### Job Offers

Easily create dynamic and attractive job offers that go beyond a classic job description.

### Video presentation

Stand out from other employers by presenting your jobs, your teams and your company in video.

"Setting up the software was very easy, Beehire is a very intuitive tool. This was critical for us as we have to collaborate with many different teams!"

"The one-way video interview gave a chance to candidates who didn't necessarily have a profile that matched our expectations on their resume. Some of them were able to stand out with their video presentation."

"Beehire allows us to centralize all our applications on a central platform. This allows a much faster and easier applications management!"
