REIMAGINE AI: BUILDING THE INTERFACE BETWEEN AI & THE HUMAN EXPERIENCE

Reimagine Ai is an artificial intelligence creative studio. We build AI-powered interactive virtual beings, experiences and technologies. Art and Science.

OUR PROCESS

CREATE

We design and build fully interactive AI-based virtual beings and interactive AI exhibits.

COLLABORATE

We can find, build and/or integrate the solution in collaboration with your project and team.

CONSULT

We can help navigate this new medium of interactive AI technology.

WEINTEGRATE

- NLP • Voice Synthesis • Text To Speech • Emotion Control • Object recognition • Facial Recognition • Computer Vision • Language Programming • Multilingual • Motion Tracking
- RFID • 3D Modelling • Blend Shapes • Rigging • Noise Gate • Mobile • Web
- XR • Live • Digital Double •

**ARTIFICIAL
INTELLIGENCE
TECHNOLOGY HAS
OPENED UP A WHOLE
NEW WORLD OF
INTERACTIVE
STORYTELLING**

OUR PLATFORMS

AVATAR CREATOR

Our platform of interactive and artificial intelligence technology to create AI-powered virtual beings. In Unity and Unreal Engine

SECONDSOUL MEMORY ENGINE

Reimagine AI's platform SecondSoul allows anyone to fast-prototype a character's personality, memories, and story without any technical chatbot training. SecondSoul is for Interactive character development for NPC's in Video Games and the Metaverse, Animation, TV, Film, and Web.

THANK YOU.
