

 **SwipeVideo**

- VOD to VOD2.0 (View on Demand) -

A Patented Free-Viewpoint Video Delivery System

SwipeVideo - Free Viewpoint

SwipeVideo creates fully user controllable free viewpoint video :

- Video works in all play modes, including zoom
- Infinite angles can be added with no latency/buffering
- Fully streamed on any browser using 4G – no downloads!
- No need for expensive hardware

SwipeVideo - Multi-Angle Live and Archive Streaming

SwipeVideo gives directorial control to the viewer :

- Available for both archive and live streaming
- All available TV or stadium cameras can be combined into a lightweight web stream
- There is no 'sharing of bandwidth' meaning all angles can be shown at original resolutions

User can choose from any televised angle

SwipeVideo - Comparative Advantages

- ✓ Delivery over current 4G networks
- ✓ User controlled bullet time / multi-angle video
- ✓ Unlimited numbers of cameras, angles
- ✓ No special hardware required
- ✓ Live and archive streams available

SwipeVideo - Technical Education

swipevideo.site

SwipeVideo - Sports Streaming

- ✓ Live TV footage using multiple cameras can be turned into SwipeVideo
- ✓ Goal, touchdowns, video review can all be controlled by the viewer rather than the broadcaster
- ✓ As sports shifts away from TV to the internet, viewer UX will also become interactive
- ✓ With 5G, real-time multi-angle replay will enhance the offline sports viewing experience

SwipeVideo - Sports & Fitness Training

- ✓ Content is easily created, and readily streamable for both review and remote learning
- ✓ Online and app-based training is expected to grow steadily
- ✓ Instant system allows for onsite recording and side-by-side comparison
- ✓ Already installed in a major sports training school in Japan

✓ Give fans an interactive experience!

✓ Artists have a new way to engage with their fans, creating new revenue streams in an industry hit hard by COVID-19

✓ Live streams are now available with up to 30 angles. Streams can also be uploaded to the cloud for easy replay

SwipeVideo - E-Commerce

- ✓ **SwipeVideos can be embedded directly into your webpage or app**
- ✓ Increase conversion rates by giving your customers a fresh way to view products online
- ✓ **On premise recording is fast, efficient and low-cost with almost no editing required**

- ✓ We are looking to launch in the US, Europe and Asia
- ✓ We are looking for growth partners and re-seller partners
- ✓ We will raise our Series A in Fall/Winter 2021 to help with our expansion process overseas

THANK YOU!!
