

TOKEN

THE A-TO-Z TOOLKIT FOR A2A PAYMENTS

Since 2016, Token has pioneered innovation in payment initiation and data aggregation technology in Europe. Today, Token is driving the shift from traditional payment methods to account-to-account (A2A) bank payments with best-in-class, Pan-European bank connectivity, data and compliance capabilities.

With Token's complete toolkit, the best and brightest merchants, PSPs and banks create new capabilities and revenue streams. Token is both bank and developer-friendly, and multi-standard by design.
