

trone

When the intimate  
**becomes exquisite**

# Finally, toilets with **design**

Created by a collaboration of designers, engineers and French craftspersons, Trone was born with a mission : reinvent the toilet experience. A less monotonous, more singular experience. Memorable.

# Our **collections**

Whether they are plain, speckled, flaked, ... these toilets will punctuate your interior decoration with a touch of madness. And it won't surprise just one.

# Icone**01**

The first reinvention of the toilet in 250 years. 100% made in France.

# Experiences

Because reinventing the toilet is not only about reinventing the object, Trone also creates bespoke experiences.
