

Simplify knowledge sharing and **maximize the impact** of your outreach.

Easy-to-use video production that anyone can master.

Empower your employees to share

Enhance peer-to-peer knowledge sharing across your organization with the platform that enables employees to produce high-quality video from their phones. Build a company-wide video library that consolidates your team's knowledge and gets new hires up to speed, fast.

Increase customer satisfaction

Start your customers off strong with exceptional onboarding that shortens their learning curve and decreases time to value. Simplify support with how-to storyboards and videos that quickly answer customer questions.

Drive more revenue

Empower your sales teams to create and share branded, personalized videos to boost their pipeline and foster better conversations with prospects and clients. Enable your star performers to share their knowledge and best practices, enhancing your team's overall performance.

Produce stellar success stories

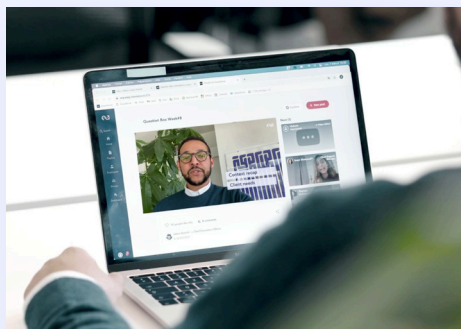

Happy customers are your best advocates. Give your biggest fans a platform through dynamic video stories that share their successes with your product—and watch your demand grow.

What makes EasyMovie different?

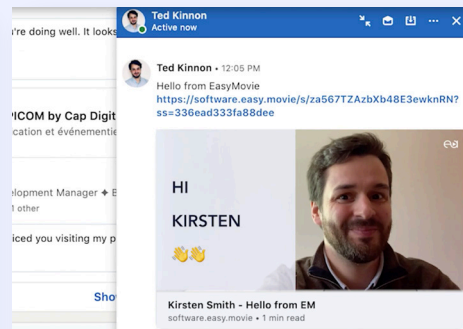

Create Valuable Videos in Minutes

With EasyMovie's built-in SaaS platform, you can create templates and storyboards with embedded questions, prompts, and guidelines, making it easy for your employees to record insightful, structured videos on the spot—no prior experience required.

Stay On-Brand and Compliant

EasyMovie ensures everyone can create beautiful, on-brand content by pre-embedding all graphic, visual, and branding elements. Plus, it manages all your legal documents, like image rights waivers and international music licenses—so staying compliant is a cinch.

Share Everywhere

Let everyone see your masterpiece. EasyMovie enables you to share your video content with a few clicks—to Salesforce, your learning center, social media, Slack and more. Colleagues and customers alike will be delighted by what you create.

L'ORÉAL

THOMSON REUTERS

Integrating a SaaS platform and a mobile app, we enable doers, makers, experts, and visionaries to easily create, manage and share video content. Thanks to customizable storyboards and built-in compliance, the EasyMovie platform removes all the most common barriers to producing and sharing employee-generated content at scale. It's no wonder that leading brands rely on EasyMovie to meet their video needs.

EasyMovie is the all-in-one video platform that enables teams to share knowledge, improve employee skills, and deliver personalized customer experiences.
