Easily manage your **GRPD** compliance

Discover our solution, designed
by DPOs, designed for DPOs

Colibri DPO

Easily Manage your GRPD compliance

Colibri DPO is an RGPD compliance management software created by Ftel, an expert in IT development, and Kyoss, a pioneer in outsourced DPO.

Combining performance and business expertise, Colibri DPO has all the tools necessary for a qualitative compliance.

Risk reduction

By involving all stakeholders, Colibri DPO helps you achieve better data protection practices and minimize the risk of errors.

Intuitive interface

No input constraints for a quick update of treatments, all documents and evidence associated with compliance are centralized in the tool

Increase of effi-ciency

By leveraging collaboration, free DPOs from administrative tasks. Let them focus on the missions that add value.
