Our Story

We combine generations of beekeeping experience with breakthrough innovation to provide the best hives while keeping bees and humans at the center of our strategy.

31,250

Beehives placed in 2021

15,700

Acres pollinated

1973

40+ years of pollination experience

10+

Crop varieties pollinated

Why work with us?

Diversity

Our bees are sourced from multiple states & from different beekeepers to optimize bee quality and secure your yields.

Full transparency

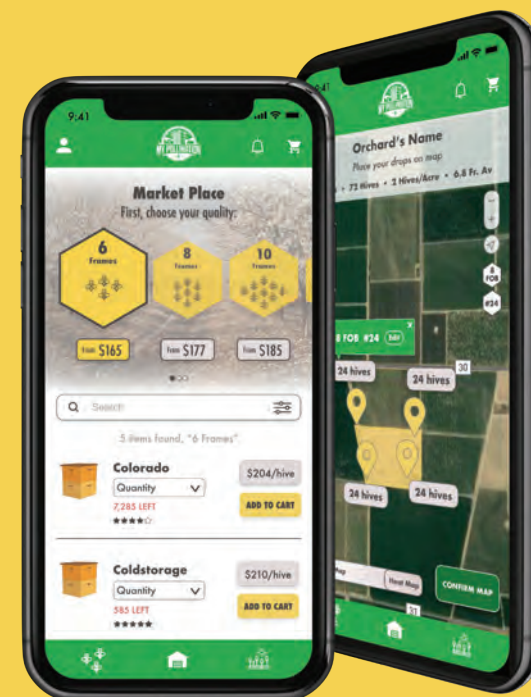

100% transparency where you receive live updates at every step of the process from order to delivery.

Experienced & local team

40+ years of pollination experience running operations in CA, SD, MT, TX, NC, NY and ME, our team can take care of your hives at any time.

Optional data & sensors

Remote sensing technologies, available at competitive cost to ensure hives' health and optimize your pollination performance.

MyPollination App

Your one stop shop. Strong, quality hives right at your fingertips.

- ✓ **Prospect and secure hives**
- ✓ **Pin drop your orchard to guarantee precise placement**
- ✓ **Get real-time hive tracking**
- ✓ **Ensure quality control (in-hive sensors required)**
